GARDEN GROVE KIWANIS RAMBLINGS, PUBLISHED WEEKLY

OCTOBER 15, 2009

*We had a special member back with us tonight, and he came bearing gifts...*

## President Brent Back in Control Tonight!

Both **President Brent Hayes** and **V.P Will Swanstrom** were back with us tonight. We also had **Ed Beaudin** joining us this evening. And he was accompanied by a platter of his famous barbequed salmon and halibut that he brought back from his fishing escapades in **Alaska** this summer. It's always good to see **Ed**, but its even better to see him with a platter of cooked fish in his hands!

*Ed Beaudin joined us this evening and brought some of his famous BBQ'd salmon and halibut from Alaska for Club members to snack on this evening.*

Next week (Oct. 22nd, not Oct. 24th as last week's newsletter reported) will be a special dinner hosted by **Jay Mastroianni** to celebrate **Jack Wallin's** 80th birthday. This celebration will have a special menu selected by **Jay** and he wants all members to bring their significant other to the meeting that night to celebrate this special occasion. A sign-up sheet was passed around in order to get an accurate head count for the event. If you missed the sign-up sheet, call **Brent** or **Jay** and let him know that you will be attending what promises to be an evening of fun, fantastic food and fine fellowship.

### Program

Tonight's Program was our own **Brent Hayes**. But he wasn't talking to us **Garden Grove Kiwanis Club President Brent Hayes**, he was talking to us as **City of Garden Grove Public Works Brent Hayes**. **Brent** had two maps of **Garden Grove** that showed the City's sewer system and deficient areas within the sewer system. The two maps were of the system two years ago and the current system. The maps are generated based on a model prepared by the **Garden Grove Sanitary District's** Sewer Evaluation and Capacity Assurance Plan. The model identifies capacity issues within the District area and then prioritizes the improvements needed for the sewer system. Any development within the shaded areas on the map that require new connections or reconnecting to the sewer lines must be approved by the **City's Water Services Division** prior to obtaining a construction permit. The current map showed a marked improvement over the previous years map and demonstrated the work done by the **City's Public Works Department**. The current map can be seen at:

<http://www.ci.garden-grove.ca.us/?q=pw/sanitarymap>. On Saturday, Oct. 24th from 10:00 am to 2:00 pm, the **Public Works Department** will be holding an Open House at the **City's Municipal Service Center**, located at 13802 Newhope Street, between Trask Avenue and Westminster Boulevard.
